- Exclusions and behavioural information
- Assessment information
- Post 16 learning information

Why do we collect and use pupil information? We collect and use pupil information under the Education Act 1996. The EU general data protection regulation 2016/679 (GDPR) will take effect in May 25 2018 including Article 6 'lawfulness of processing' and Article 9 'Processing of special categories of personal data'

The collection of personal information

The school collects information about pupils and their parents or legal guardians when they enrol at the school. The schools also collect information at other key times during the school year. Information is also received from other schools when pupils transfer.

The **school** processes the information it collects to administer the education it provides to pupils. For example:

- the provision of educational services to individuals;
- monitoring and reporting on pupils' educational progress;
- the provision of welfare, pastoral care and health services;
- the giving of support and guidance to pupils, their parents and legal guardians;
- the organisation of educational events and trips;
- planning and management of the school.

Welsh Government (WG) and Local Authority (LA)

The Welsh Government receives information on pupils normally as part of what is called the Pupil Level Annual Schools Census (PLASC). The Welsh Government uses this personal information for research (carried out in such a way that ensures individual pupils cannot be identified) and for statistical purposes, to inform, influence and improve education policy and to monitor the performance of the education service as a whole. Examples of the sort of statistics produced can be viewed at: [Wales.gov.uk/statistics](https://wales.gov.uk/statistics)Opens new window

The LA also uses the personal information collected via PLASC to do research. It uses the results of this research to make decisions on policy and the funding of schools, to calculate the performance of schools and help them to set targets. The research is carried out in such a way that ensures individual pupils cannot be identified.

In addition WG and LAs receive information regarding National Curriculum assessment and Public Examination results and attendance data at pupil level.

Storing pupil data

We hold pupil data for 6 years following a student's last entry which would be when they reach 25 years of age.

Organisations who may share personal information

Information held by the school, LA and the Welsh Government on pupils, their parents or legal guardians may also be shared with other organisations when the law allows, for example with:

- other education and training bodies, including schools, when pupils are applying for courses, training, school transfer or seeking guidance on opportunities;
- bodies doing research for the Welsh Assembly Government, LA and schools, so long as steps are taken to keep the information secure;
- central and local government for the planning and provision of educational services;

- social services and other health and welfare organisations where there is a need to share information to protect and support individual pupils;
- various regulatory bodies, such as ombudsmen and inspection authorities, where the law requires that information be passed on so that they can do their work.

Pupils have certain rights under the Data Protection Act, including a general right to be given access to personal data held about them by any 'data controller'. The presumption is that by the age of 12 a child has sufficient maturity to understand their rights and to make an access request themselves if they wish. A parent would normally be expected to make a request of child's behalf if the child is younger.

If you wish to access your personal data, or that of your child, then please contact the relevant organisation in writing. Details of these organisations can be found on the school or LA website or for those pupils/parents where this is not practical, a hard copy can be obtained from the school.
