REF: 02.10.15

Dear Parents and Carers

As you may be aware, we have been eagerly awaiting the construction of a new classroom to accommodate our ever growing school population.

Building works are set to commence on Monday the 5th of October. As a result you will notice machinery and construction equipment in designated areas.

These areas are restricted access only. During this period it is very important that parents and pupils access the school safely by walking around the building in a clockwise direction avoiding the carpark and the right hand side of the school. The bike racks will be moved to an accessible location to the rear of the building.

Thank you for your understanding during this time. We are looking forward to unveiling our new classroom in the very near future.

Kind regards

Mr I Bird

Headteacher

Work and Persevere to Succeed
