

## Sports

### Rugby and Netball

Our school rugby teams have remained unbeaten this term playing with effort and pride. As the season ends, they have only lost one game all year. Fantastic.

The netball team attended tournaments where they have done extremely well and are going forward to the next round representing Bridgend. Great achievement.

### Cross Country

The Primary Schools Cross Country continues and the team members are forever improving, showing great effort and commitment. Good luck

## West Park Primary -Spring Newsletter

So, Easter is upon us once again and the year is flying by. The whole school has been very busy with projects, visits, celebrations and competitions !

### Nursery and Reception

We went to Cardiff Castle and met a real knight and a small dragon. We made goblets for our medieval banquet. We found out about castles due to our topic, Wonderful Wales! We built castles and did role plays in them.

### Year 1 and 2

We have been working and improving our skills in maths. We have been weighing and learning about capacity. We have found out where different castles are located in Wales!

### Year 3 and 4

Have been looking at the woodland. We made a bug house and have been finding out which bugs are most popular in our woodland and why they like this environment. We have been comparing plants and animals.

### Year 5 and 6

We have been studying our coastline. During a beach adventure, we carried out a survey of litter and are now investigating our findings— where it comes from and the effect it will have on our environment. We studied beach erosion and how our coastline has changed over time.

### Whole School Celebrations

The Spring Term, as usual, has been very busy. We have celebrated St David's Day and Sport Relief. We all had great fun on these days, with singing, role play, reciting and lots of creative activities across both the whole school on St Davids Day. Sport Relief allowed us all to participate in sporting activities of many kinds, with many of us experiencing new, fun activities for the first time. Most importantly, we were keeping healthy and enjoying ourselves.
